### **EXAMINER'S AMENDMENT**

1. An examiner's amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it MUST be submitted no later than the payment of the issue fee.

The application has been amended as follows:

In the title, "and composite produced thereby" has been deleted.

### ***Reasons for Allowance***

2. The following is an examiner's statement of reasons for allowance: Upon further consideration, the prior art of record does not teach or fairly suggest using the claimed composition in the method claimed. While Parish et al. teaches applicant's composition, the purpose of the composition is to replace the gel coat rather than the barrier layer, and one combining the references would think to replace the gel coat with the composition rather than the barrier layer. While Comstock also teaches applicant's composition, the reference is directed to the material that would form the article, such as the boat, rather than to any layer which might be coated on it. The reference does not suggest this material can be used to coat another material. Therefore, absent art showing the claimed composition as a barrier layer/skin laminate the claims are considered allowable.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably

Art Unit: 1733

accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
